1233 Veterans Drive, PO Box C

Dear Chairman Tsumpti,

The Umatilla National Forest would like to know your concerns, questions, and suggestions regarding a project proposal to remove timber, thin small diameter trees, and prescribed burn in the High Buck project area. This Project is located on the Walla Walla Ranger District about 10 air miles northwest of the city of Elgin, Oregon. The planning area encompasses about 11,000 acres of National Forest System lands in the vicinity of Horseshoe Prairie, Ninemile Ridge, and Buck Mountain. The area is accessed by Oregon State Highway 204 and Forest Road 31 (Summit Road).

The Notice of Proposed Action and related documents are available online at <https://www.fs.usda.gov/project/?project=53033>.

The proposed project is an activity implementing a land management plan and subject to the objection process described in 36 CFR 218 Subparts A and B. In accordance with National Environmental Policy Act (NEPA) regulations we will be preparing an environmental assessment to disclose potential resource effects from the proposed action.

The Forest is combining scoping with the legal notice and opportunity to comment on the Proposed Action, as described in 36 CFR §218.24. Your comments during this 30 day comment period will afford you standing to object to the proposed action following release of the Environmental Assessment, Finding of No Significant Impact, and draft Decision Notice. There will be no other designated comment period. If no specific written comments are received during this designated opportunity for comment (§218.5(a)), the project will not be subject to objection.

Specific comments should be within the scope of the proposed action, have a direct relationship to the proposed action, and must include supporting reasons for the responsible official to consider. Specific comments would be most helpful when they highlight cause and effect relationships or refine the action to protect resources or interests while allowing us to be responsive to project goals. Comments offered in support of the proposal are also welcome.

The comment period ends 30 days following the date of publication of the legal notice in the East Oregonian. Submit written comments electronically to <https://cara.ecosystem-management.org/Public/CommentInput?Project=53033>.
